Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

The amended drawings filed on September 18th, 2006 are acknowledged by the examiner. The correct for the formal issues as previously set forth by the Draftsperson's Drawing Review. However, they are still objected by the examiner himself for not clearly depicting the device. The structure drawn is unclear due to the size of the drawing along with appearing hand-drawn.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

The amendment to the abstract filed on September 18th, 2006 is acknowledged and accepted by the examiner. The corresponding objections are hereby withdrawn.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 30-49 are rejected under 35 U.S.C. 102(b) as being anticipated by Caspari et al (US Patent 5,228,459).

Caspari et al disclose a system (**Figures 2 and 3**) for accurately placing a pin in bone comprising: a pin guide (**50**) and a guide apparatus including: a support body (**42**); a guide arm (**40**) which extends towards the guide; a fine adjustment block (**126**) moveable in at least one degree of freedom; a gross positioning block (**102**) moveable in at least one degree of freedom; a rack gear (**104**) attached to the gross positioning block (**102**); a thumbwheel gear (**128, 132**) mounted to the fine adjustment block (**126**) and configured to interact with the rack gear (**104**); a support arm (**72**); a second gross positioning block (**58**) and second fine adjustment block (**66**) capable of causing movement in another degree of freedom.

Response to Arguments

Applicant's arguments with respect to claims 30-49 have been considered but are moot in view of the new ground(s) of rejection. Instead of **138** being the pin and **134**

Art Unit: 3733

being the pin guide, **50** is currently being interpreted as the pin guide for a pin not shown.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
